

APPLICATION

General uses:

- Detection of presence or absence of flow in the installations. (Installations of pumping, water treatment.)
- Control devices as: pumps, compressor
- Release of devices of road marking or alarm

TECHNICAL DATA

- Metal housing
- Plastic cover
- Brass copper alloy contact
- Rated current: 220V
- Protection IP54
- Rated working pressure: 16 bar
- Maximum working temperature: 80°C.

MATERIAL

No.	Parts name	Material
1	Body	Steel
2	Cover	ABS
3	Palette	Inox
4	Seat	Brass

SPECIFICATION

- Type: ABS Flow indicator
- Threaded male BSP
